Announcement

Doman Announces National Distribution Partnership with Owens Corning® FOAMULAR® NGX® XPS - Effective Jan 1, 2026

To our valued customers:

Doman Building Materials is pleased to announce that it will add Owens Corning® FOAMULAR® NGX® Extruded Polystyrene (XPS) insulation to its portfolio of products effective January 1, 2026. This exciting partnership will expand Doman's leading product offering in Building Materials throughout Canada.

Owens Corning is a global leader in manufacturing sustainable building materials, and its FOAMULAR® NGX® XPS insulation is recognized for moisture resistance, energy efficiency, and proven performance in both residential and commercial applications.

Doman's national stocking and LTL infrastructure, supported by its logistics and sales services, will enable dealers all across Canada to access Owens Corning® FOAMULAR® NGX® XPS insulation with confidence in its quality, sustainability, and long-term value.

At Doman, we are committed to providing top-quality building materials with dependable supply and service. We are excited to add Owens Corning XPS Rigid Foam Insulation to our portfolio.

For details, pricing, and orders, please contact your Doman representative.

Yours truly,

Doman Building Materials
