

ADVANCED PVC DECKING

Our most realistic wood looks with unparalleled performance

BEST CHOICE FOR FIRE ZONES Unlike many wood and composite decking options, our Advanced PVC boards feature a Class A Flame Spread Rating, WUI-Compliance, or both. Class A Flame Spread Rating is the highest available for decking.

SUSTAINABLE: GREENEST PVC DECKING ON THE MARKET Made in the USA from approximately 60% recycled material, including post-construction scrap like vinyl siding and trim, our Advanced PVC decking is the greenest PVC option on the market. Plus, it's fully recyclable at the end of its useful life through our FULL-CIRCLE Recycling® Program.

SUPER DURABLE Made of high-performance and recycled polymers (and absolutely no wood fibers), it's highly resistant to moisture damage like mold and mildew, and it won't splinter, crack, peel, or rot.

LOW MAINTENANCE Forget sanding, staining, or sealing your deck. An occasional scrub and rinse are all that's needed.

FADE & STAIN RESISTANT Enjoy a richly hued, unblemished deck for decades with protective capping that resists UV rays and staining.*

FRIENDLIER TO BARE FEET Better for bare feet and paws, it stays up to 30° cooler to the touch** and features up to 40% better traction than competitive products.

INDUSTRY-LEADING WARRANTIES Your investment is protected with a 50-Year Fade & Stain Limited Warranty and Limited Lifetime Product Warranty.

*Depending on environmental conditions, TimberTech Advanced PVC Deck colors may appear to change over time as part of the natural weathering process consistent with the warranty guarantees where applicable. **Although TimberTech Advanced PVC decking is cooler to the touch than many other composite deck boards, all decking products will get hot in the sun. Additionally, the darker the decking color, the hotter it will feel. For hotter climates, consider choosing a lighter color.

VINTAGE COLLECTION®

Exotic Hardwoods

This collection captures the look of sought-after premium hardwoods with a refined wire-brushed finish and multitoneal color blending featuring highlights and lowlights.

- Best choice for fire zones thanks to Class A Flame Spread Rating & WUI-Compliance
- Multiwidth Decking options, including narrow- (3.5"), standard- (5.5"), and wide-width (7.25") boards for design flexibility
- MAX (1.5" thick) boards available in Coastline, ideal for docks, boardwalks, and other commercial applications

LANDMARK COLLECTION®

Crosscut Hardwoods

For a look that resembles popular hardwoods like white oak and walnut, choose this crosscut cathedral grain style with a matte finish and cascading color blending.

- Best choice for fire zones thanks to Class A Flame Spread Rating & WUI-Compliance
- Cascading highlights and lowlights create dramatic coloring for unique board-to-board variation
- Available in standard width and thickness

HARVEST COLLECTION®

Refined Cathedral Grain

Embrace the soft, inviting versatility of attractive cathedral grain—with varying peaks, and soft, solid colors that suit a range of styles.

- Better choice for fire zones thanks to WUI-Compliance
- All colors available in standard width. Brownstone and Slate Gray available in wide-width (7.25")
- MAX (1.5" thick) boards available in Slate Gray, ideal for docks, boardwalks, and other commercial applications
