Vintage Collection® in Weathered Teak®
Impression Rail Express®, Modern Top Rail

*Depending on environmental conditions, TimberTech Composite Deck colors may appear to change over time as part of the natural weathering process consistent with the warranty guarantees where applicable. **Although TimberTech PVC Decking is cooler to the touch than many other deck board products, all decking products will get hot in the sun. Additionally, the darker the decking color, the hotter it will feel. For hotter climates, consider choosing a lighter color.
